

**How SAFE is the guardrail on top of YOUR elevator cab?  
Top-of-Car Guardrail Kits from UNITEC**

**NOTE:** The new kits are specifically designed to assemble to current production carframes. When applying these handrails to older or non-Otis elevator systems, additional on-site customization will likely be necessary.

**SURVEY FORM**

**Top of Cab Dimensions**

**Front or Front/Rear**

Car Width (in.): \_\_\_\_\_

Car Depth (in.): \_\_\_\_\_

**If for Otis equipment, complete the following section:**

Roller Guide Size (in): 10 in., 7-7/8 in.

Car Frame Type: 9C, 11C, 12C, 14D, 18D, 25D

**Top-of-car guardrails reduce the potential for falling off the car top and is standard protection on most new elevators (ASME 2000-2.14.1.7; 2.10.2).**
