

Escalator Combs

ENHANCE THE SAFETY AND APPEARANCE OF YOUR ESCALATORS

SAFETY

Colored combs indicate clearly where the stationary part of the escalator ends and the moving part begins.

DURABLE

Otis combs are tested under the harshest conditions and are designed to withstand tremendous wear.

EXPERIENCE

For over thirty years, we have been committed to providing our customers with the highest quality elevator and escalator replacement parts. Our team members have over 275 years of combined experience in the industry. UNITEC offers 150,000 Otis and non-Otis parts for repair and modernization projects and we have the ability to research your specific part needs.

- Escalator combs, commonly made from die-cast aluminum, help remove debris from the escalator step treads
- Code compliant: ASME A17.1 and CAN/CSA B44 national codes require a visual contrast between the comb and step
- Offered in our standard die-cast aluminum combs, bright-colored combs, available in Lexan®, powder-coated aluminum, all of which comply with safety requirements of ASME 17.1 and CAN/CSA B44 national codes

BENEFITS

- Increased safety
- Improved appearance
- Applications
 - Lexan® – for Otis R, RB, RB-C and all other
 - R-type escalators
